

# YOUR BRAND HERE

← **Data format: 610 x 510 mm**

The format in which your print data should be created. Included in this format are: **5mm overlap**.

This bleed will be removed by us during production. Please always place backgrounds and bleed-off objects up to the edge of your data format in order to avoid white margins.

← **Cutting line**

You will receive your finished print product in this format.

← **Safety distance: 5 mm** (on all sides)

This is measured from the data format and prevents unwanted bleeds in your texts and information during production.
